Dear Commissioners:

The San Gabriel Valley Economic Partnership (SGVEP) was created to foster the success of business to enrich the quality of life in the greater San Gabriel Valley. We are a regional, not-for-profit corporation that is a collaboration of businesses, local government, higher education institutions, and non-profits that pursues this commitment through three key areas of focus: providing professional business assistance, advocating public policy and marketing the San Gabriel Valley.

Due to our focus on public policy, I am writing to you today for your support of the AT&T/T-Mobile merger. As we operate in a challenging economic climate, it is vital that policies are adopted that establish the right incentives to create new jobs and promote economic growth in our community.

Of great interest to my organization is how this merger will help move innovation forward. As a business organization, we are constantly looking to technology to help our partners remain competitive. AT&T's aggressive plans for deployment which will lead to network improvements and will help relieve spectrum shortage issues are vitally important.

Thank you for your consideration of this matter and would appreciate your support and prompt approval of this merger.

Sincerely,

Cynthia Kurtz

San Gabriel Valley Economic Partnership
